Above: Cheryl on the front desk always greets people with a smile.... Even if you can't see it under the mask.

Above: Some of our incredible staff from Poppy Place

Above: Michelle makes sure everyone can enjoy a nice hot cuppa and a tasty treat – Thanks Michelle!

The Week That Was
International Nurses Day

We're incredibly proud of our talented RN's, EN's & PCA's at Yackandandah Health who go above and beyond to deliver quality care to residents and their families, each and every day. Now, more than ever we would like to thank our nurses, not only for their clinical care - but for the kindness and compassion they show each day. We are privileged to have such caring, capable nurses to lead our team. Thank you!

Delicious muffins were given out to all staff at YH as a thank you for their hard work, thanks to our wonderful catering team.

Meet our staff

RN Zarah

I love my Noble job as an RN. I love the residents and the Yack Health team 😊

EEN Marcus (pictured with his daughter Hannah) has worked for Yack Health for the past 15 months and has enjoyed getting to know the residents and putting a smile on their faces each day

Eileen RN

I enjoy spending time with the elderly, it is a privilege to walk the path with them. People always remember how you made them feel.

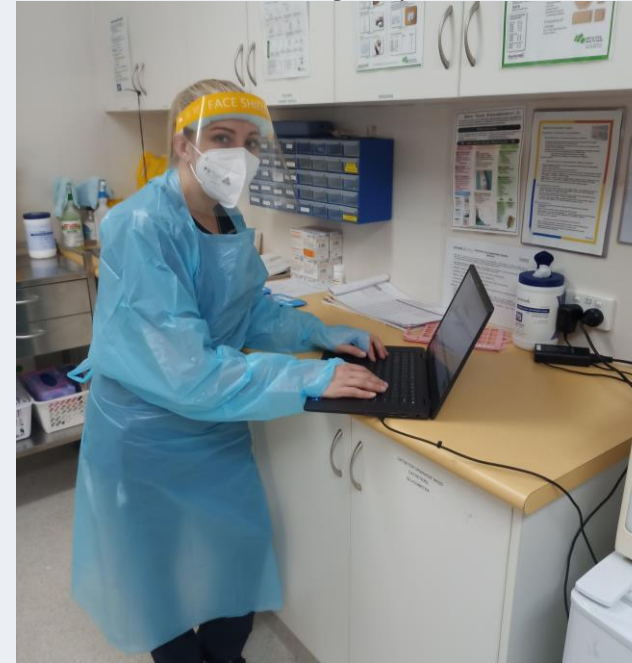

PCA Joey

I just love looking after the elderly

Meet our Staff

EN Cass loves the relationships she builds with residents and their families and is always up for a chat.

PCA Tania is very passionate about her work and loves working with elderly people

Julie, Joy, Lea & Eileen

RN Samarjeet Kuar (Sammy) has been with YH for 2 years. Her favourite thing about her job is caring for people, especially when they are unwell.

EEN Matisse

I decided to train to be a nurse after watching the care that my mother received from nurses during her battle with cancer, then again as I watched my Nan during Palliative care.

I treat residents with the level of care and respect that I would like for my own family.
