Residents

Weekly

THE WEEK THAT WAS 18<sup>th</sup> January ~ 24<sup>th</sup> January 2025

**Introducing Michelle Ward -  
Environmental Team Leader**

Michelle has been part of the Yack Health team for approx. 2 years as a cleaner and prior to that as a Personal Care worker.

With Marg retiring last week, Michelle has stepped up into the role of Environmental Team Leader.

**Introducing Suraj Bohara - Domestic Care Worker [DCW]**

The Domestic Care Worker is a new introduction to our ever growing and supportive team of staff here at Yackandandah Health.

The DCW will contribute to our residents' comfort and quality of life by providing safe, high-quality domestic care and services in partnership with Personal Care Workers. Our Domestic Care Workers will provide all care and services that a Personal Care Worker would provide other than direct contact personal care.

Domestic Care Workers will have significant direct contact with our residents and have a pivotal role to play in supporting the implementation of our Philosophy of Care and enhancing each resident's quality of care experience. Please make Suraj welcome when you see him.

## YOU ARE INVITED TO ATTEND THE

### RESIDENT RELATIVE AND FRIENDS MEETING

Tuesday 4<sup>th</sup> February 10.00am Activities Room

Resident Relative and Friends meeting at Yack Health will be held on the 4th of February this year, marking a slight change in the usual schedule. Traditionally held on the second Tuesday of every second month, the meeting has been moved to the first Tuesday of the second month, commencing at 10.00am, in an effort to better accommodate the schedules of attendees. This gathering provides an important opportunity for residents' relatives and friends to stay informed about the health and wellbeing of their loved ones, as well as to offer feedback and suggestions to enhance the quality of care and support offered at Yack Health.

Moreover, the meeting fosters a sense of community and support among relatives and friends. Attendees can connect with others in similar situations, creating an environment of shared understanding and empathy. This networking helps reduce feelings of isolation and provides a space where family members can learn from each other's experiences, share advice, and offer emotional support. Overall, attending these meetings promotes not only the wellbeing of the residents but also strengthens the support systems for their families.

## .JOKE OF THE WEEK

A farmer was heading to town in his horse drawn wagon when a car veered over and hit him on the head. The car's driver was found at fault, but the insurance company wouldn't compensate the farmer for his injuries, pain, and suffering. The farmer sued and while on the witness stand, the defence attorney asked him after the accident and you were sitting on the pavement, didn't you tell the highway patrol officer that you had never felt better in your life?

The farmer replied Yes, I did, the attorney then responded, so you said you were feeling fine, but then you are here before the court claiming compensation, why do you think that's fair, considering what you said to the officer? Well, after the accident the officer came upon the scene and saw that my horse had two broken legs and was in great distress, so, he pulled out his gun and shot him dead. He then came closer and saw my dog was run over and was howling in pain. The officer then shot my dog. After that with a gun still in his hand he approached me and then he asked, how are you doing?
